

02 Conditions Class Actions Docket

El Paso ICE Facility Abuse Complaint

Date: January 2026

Key Issues: Crushed testicles, mental torture, medical neglect, overcrowding, disease outbreaks, homicide rulings tied to Cuban detainees.

Court: Western District of Texas (likely class action).

Status: Active. Overlaps with facility challenges and death cases.

Legal Angles: 8th/14th Amendment conditions claims, medical neglect, class-wide relief. Strong pattern evidence for systemic failures post-2025 policy changes.

Sources: X reporting and linked news. Recommend pairing with American Oversight FOIA suits for supporting records.
